

Welcome to Höpler's Wine Rooms

The winemaker's passion is present in every wine, but so are nature's power, the berries' characters, and the authenticity of the country and its people. Visit Höpler's Wine Rooms and experience this for yourself in an extraordinary way. Discover your own, personal approach towards wine.

Appreciate and Experience Wine

The unique atmosphere in the courtyard of Höpler's wine estate has been host to many visitors over the years.

The eight wine rooms have been skilfully integrated into the historical house. The old stables, the old kitchens, the barn, the press house, the cellar and the remaining living quarters have all been recently renovated and now provide a classy environment for a very personal and sensual experiential wine adventure.

Your journey starts and finishes in the former fuel store (= tasting room) and it will take you about an hour to experience the Wine Rooms.

The Vault

Wine is a valuable product. Not only does it combine knowledge, tradition, hard work and nature, but also taste, imagination, love, desire and experience. Just like a mysterious treasure, wine can be discovered gradually too. In the vault, you can sharpen your senses, reach into yourself and discard your pre-conceived opinions.

The Colour Room

White and red. Shiny gold and earthy copper. Brilliant midday yellow and soft sunset red. The multitude of colours accentuates the wine's specific style (characteristics). Your eyes cast a fitting mood onto your spirit. The lights shine through the pigments, breaking through longingly or hiding in satisfaction. Allow the colours to work on you and you'll realize just how much you can feel through your sight.

The Aroma Room

There is more to wine than just grapes. The nose cannot be fooled and it senses the minutest of aromas – the mineral character from the soil, the strength of the sun, and the timber from the barrels. There are many influences on aroma – even your mood. Aromas are often described even though they are indescribable. Develop your own understanding and follow your own nose.

The Sound Room

You can talk about wine, you can trade it, you can make a living from it and you can enjoy it. Friendships can develop and truths are often revealed. Some people even maintain they can hear the berries growing and the wine maturing in the barrel. Whatever, it certainly attracts attention. Its economic and social standing is of undeniable importance. Its language is sophisticated and trivial at the same time – for wine is inherently down-to-earth.

The Touch Room

Wine has many faces, but only one mother: nature. Understand the natural secrets of wine by touching its rich soil and by experiencing the warmth of the air and the strong roots of the vine. Feel your way to appreciating its authenticity and discover how important the relationship between wine and its natural surroundings really is.

The Film Room

Surrounded by barrique barrels, allow yourself to be transported into the beautiful countryside of Lake Neusiedl and its surroundings for 3 minutes. Discover the vineyards poised on the lake's banks and feel the vines inhale the Pannonian climate. It is more than cine-aesthetic pleasure – it is an adventure into the many influences that give wines from this region their distinctive character.

The Time Room

Time to relax. Wine matures and develops its own character. Every second is precious, every minute is a step closer to achieving complete harmony. Its charm is derived from its mystery. Some wines take years to develop their full potential, while others are ready within a few weeks. Wine is the master of its own destiny and nothing can force it into becoming something else.

The Tasting Room

Put our wines to the test. Taste the wines from Höpler's estate. Why not take home some of the wines you've tasted at our reasonable "cellar door" prices?

And for those looking for useful wine accessories, we're sure you'll find something suitable in the tasting room boutique.
